

# KLÖKKEBLÖMST: ROMANTICIST

The Danish trio Klökkeblömst releases their second CD containing new compositions by the double music award winner Peter Danstrup. Their first CD Klökkeblömst (ILK205CD) drew a lot of attention in both Europe and the US, and on Romanticist the band shows how strongly they have developed and clarified their recognizable melodic and collective musical style.

Still with an unmistakably touch of a Danish flavour the three musicians covers all sides of their generously detailed musical universe on the 8 tracks of the record. They find room for both the long stories, the fabulating improvisations and the short, precise statements - keeping the emotional and intense expression in the core of the music all the way through.

## Klökkeblömst are:

**Anders Banke:** saxophone  
**Peter Danstrup:** acoustic bass guitar  
**Anders Provis:** drums

All three musicians are wellknown from their contributions to bands like Pierre Dørge & New Jungle Orchestra, Jan Kaspersen, Mikkel Nordsø, Book of Sounds, Hess is More as well as Danstrup/ Reptiles, where they all play.
